

Position: Organics Extractions Chemist
Full time- Entry Level-Nonexempt

Environmental Lab in Billings, Montana has an opening for a Chemist in the Organic Lab.

Founded in 1952, Energy Laboratories, Inc. (ELI) is a commercial analytical laboratory specializing in organic, inorganic, trace metals, microbiological and radiochemical analysis of water, waste, soil, air and petroleum product samples. Energy Laboratories, Inc. is an independent environmental testing laboratory whose continued success depends upon providing quality services to municipalities, state and federal government agencies, and the private sector. ELI has extensive experience with energy and mining related industries.

Essential job functions will consist of preparing samples for analysis in the Extractions Lab using various EPA methods. Environmental samples include but not limited to waters, wastes, soils, and air. Direct responsibilities will include managing backlog of samples, preparing samples, overseeing inventory of supplies and standards and using the LIMS program. Should be familiar with MS Office Suite programs and be able to navigate computer network. Have the ability to communicate with other department level experts and Senior Chemists on technical questions or issues that may arise. Be dependable, self-motivated, detail oriented and work well in a team atmosphere.

BS in physical sciences or related laboratory experience is required. Work schedule is M-F with some evenings and weekends.

Annual salary range is \$30,000 depending on experience and education with the potential for wage growth with excellence job performance. A full benefits package including Health, Life, Long Term Disability Insurance, Paid Time Off and Cafeteria Plan is included. Additional compensation packages include Profit Sharing and Employee Stock Ownership Plan.

Qualified individuals interested in this career opportunity should apply by submitting a current resume with salary requirements. Apply on Indeed or visit our website at www.energylab.com.
