Dear Terry Friedlan:

On June 23, 2021 Certification Officers from the U.S. Environmental Protection Agency Region 8 performed a remote video evaluation of the Energy Laboratories, Inc. facility in Gillette, Wyoming. The purpose of this evaluation was to review the laboratory’s microbiology methods for certification under the Safe Drinking Water Act. Certification pertains to testing of drinking water compliance samples in the state of Wyoming and among Indian Country in Region 8.

Based upon recommendations in the Evaluation Report and the subsequent correction active response, certification is granted to the laboratory for the contaminants and methods listed below. The certification period spans from the end date of your previous certification letter (August 1, 2021) through the next anticipated on-site evaluation cycle (December 31, 2024).

Parameter	Method(s)	Certification		
		Begin Date	End Date	Status
Group: Microbiological Contaminants				
Total Coliforms	9223 B Colisure (Presence/Absence) ^a	8/1/2021	12/31/2024	Full

<i>E. coli</i>	9223 B Colisure (Presence/Absence) ^{a,c}	8/1/2021	12/31/2024	Full
	9223 B Colilert (Presence/Absence) ^{a,c}	8/1/2021	12/31/2024	Full

a - Drinking Water – Revised Total Coliform Rule 40 CFR 141.852
c- Ground Water - Groundwater Rule 40 CFR 141.402(c)

The expiration date for each parameter is listed in the table above. Certification will remain in effect for the period specified under the conditions that the laboratory follows the specified methods and that Water Supply proficiency testing samples are successfully analyzed by the laboratory for each of the above parameters once per year.

If you have comments or questions, please contact Marcie Tidd, Region 8 Drinking Water Laboratory Certification Program Manager, at (303) 462-9476 (R8Labcert@epa.gov).

Sincerely,

Sandra D. Spence, Director
